

## ABC Political Action Committee (PAC)

The purpose of ABC's PAC is to work within the federal election process to further the goals of the association through direct involvement in supporting and opposing candidates for the Office of President, United States Senate and United States House of Representatives.

ABC National PAC is a powerful collective of small business owners in America allowing participants to speak with a powerful, unified voice articulating the fundamental belief in free enterprise and open competition. This unified and powerful voice speaks to the value of the merit shop agenda. It is also an opportunity for members to be involved in one of the nation's largest pro-business PACs.

### Prior Authorization

Per Federal Election Commission (FEC) regulations, a corporate member company of ABC must first provide ABC PAC with prior authorization before any individual in its "restricted class" can contribute or be solicited. The "restricted class" of a member company is defined as "the company's executive and administrative personnel or their families." Executive and administrative personnel are paid on a salary and have policy-making, managerial, professional, or supervisory responsibilities. The primary contact is defined as the representative of the corporation with whom the trade association normally conducts the association's activities.
